LIST OF MAPS

Map I.0. Joint presentation of all spatial distribution maps

Map I.1.1a. Jurisdictional zonation in the Belgian part of the North Sea

Map I.1.2a. Bathymetry of the Belgian part of the North Sea

Map I.1.2b. Distribution of the surficial sediment sampling points. The colour gives an indication of their median grain-size (based on sedisurf@ database (1976-)

Map I.1.2c. Zonation of the Belgian part of the North Sea, superimposed on a bathymetry-based digital terrain model

Map I.1.3a. Spatial distribution of the sample groups at the BPNS

Map I.1.3b. Spatial distribution of the four soft-sediment macrobenthic communities on the BPNS, based on direct (i.e. macrobenthos samples) as well as modeled

Map I.2.1a. Cables and pipelines: spatial distribution

Map I.2.1b. Cables: use intensity

Map I.2.2a. Energy: spatial distribution

Map I.2.2b. Wind turbines: use intensity

Map I.2.2c. Electricity cables for wind turbines: use intensity

Map I.2.4a. Weather and radar masts, and buoys: spatial distribution

Map I.2.4b. Weather and radar masts: use intensity

Map I.2.4c. Buoys: use intensity

Map I.3.1a. Wrecks: spatial distribution

Map I.3.1b. Wrecks: use intensity

Map I.3.2a. Military waste: spatial distribution

Map I.3.3a. Shipping and anchorage: spatial distribution

Map I.3.3b. Shipping: use intensity

Map I.3.3c. Anchorage: use intensity

Map I.3.4a. Fisheries: zonation

Map I.3.4b. Fisheries (fishing): spatial distribution and use intensity

Map I.3.4c. Fisheries (fishing and non-fishing): spatial distribution and use intensity

Map I.3.5a. Military exercises: spatial distribution

Map I.3.5b. Military exercises: use intensity

Map I.3.6a. Sand and gravel extraction: spatial distribution

Map I.3.6b. Sand and gravel extraction: use intensity

Map I.3.7a. Dredging and disposal of dredged material: spatial distribution

Map I.3.7b. Dredging: use intensity

Map I.3.7c. Disposal of dredged material: use intensity

Map I.3.9a. Recreation and tourism at sea (recreational fisheries): spatial distribution and use intensity

Map I.3.11a. Scientific research (slow): spatial distribution and use intensity

Map I.3.11b. Scientific research (fast): spatial distribution and use intensity

Map I.3.12a. Nature conservation: spatial distribution

Map II.3a. Impact maps – Sand extraction

Map II.3b. Impact maps – Dredging

Map II.3c. Impact maps – Disposal of dredged material

Map II.3d. Impact maps – Commercial fisheries

Map II.3e. Impact maps – Military exercises

Map II.3f. Impact maps – Shipping

Map II.3g. Impact maps – Pipeline construction

Map II.3h. Impact maps – Pipeline exploitation

Map II.3i. Impact maps – Electricity and telecom cable construction

Map II.3j. Impact maps – Electricity and telecom cable exploitation

Map II.3k. Impact maps – Wind turbine construction

Map II.3l. Impact maps – Wind turbine exploitation

Map II.3m. Impact maps – Wrecks

Map II.3n. Impact maps – Wreck salvage

Map II.3o. Impact maps – Anchorage places

Map II.3p. Impact maps – Recreational fisheries

Map II.3q. Impact maps – Weather mast construction

Map II.3r. Impact maps – Weather mast construction

Map II.4a. Tourism and recreation in the coastal strip: conflicts with other uses

Map II.4b. Tourism and recreation in the coastal strip: positive interactions with other uses

Map II.4c. Dredging and dumping of dredge disposal: conflicts with other uses

Map II.4d. Dredging and dumping of dredge disposal: positive interactions with other uses

Map II.4e. Sand and gravel extraction: conflicts with other uses

Map II.4f. Sand and gravel extraction: positive interactions with other uses (Data analysis and Map: Maritime Institute – Gent University)

Map II.4g. Military exercises: conflicts with other uses

Map II.4h. Fisheries: conflicts with other uses

Map II.4i. Fisheries: positive interactions with other uses

Map II.4j. Shipping: conflicts with other uses

Map II.4k. Shipping: positive interactions with other uses

Map III.1.1a. The BPNS situated in the North Sea

Map III.1.1b. Conceptual view of the main sand transport directions on the seabed

Map III.1.1c. Planning aspects: sites and areas with a legal status in the BPNS

Map III.1.1d. "Mare Liberum": all uses of the BPNS in an overlay

Map III.1.2.1a. Water depth in the BPNS

Map III.1.2.1b. Median grain size of the sand fraction in overlay with locations of sediment samples

Map III.1.2.1c. Median grain size of the sand fraction

Map III.1.2.1d. Location and names of the sandbanks in the BPNS

Map III.1.2.1e. Groups of sandbanks

Map III.1.2.2a. Shipping in the BPNS

Map III.1.2.2b. Shipping intensities in the BPNS

Map III.1.2.2c. Fishing intensities in the BPNS

Map III.1.2.2d. Fishing activities in the BPNS

Map III.1.2.2e. Military exercises in the BPNS

Map III.1.2.2f. Sand and gravel extraction in the BPNS (situation since 2004)

Map III.1.2.2g. Dredging and dumping of dredge disposal in the BPNS

Map III.1.2.2h. Tourism and recreation in the Belgian coastal strip

Map III.1.2.2i. Existing spatial structure: dynamics in the BPNS

Map III.1.2.3a. Primary ecological valorisation of the BPNS in overlay with locations of benthic samples

Map III.1.2.3b. Primary ecological valorisation of the BPNS

Map III.1.2.3c. Important locations for birds (seaside and landside)

Map III.1.2.3d. Most important (known) bird routes in the Belgian coastal area

Map III.1.2.3e. Existing spatial structure: natural values in the BPNS

Map III.1.2.3f. Location of wrecks

Map III.1.2.3g. Pollution and disturbance of the seabed

Map III.1.2.3h. Pollution and disturbance of the water column: oil pollution at sea, based on observations of oil slicks 1996-2002

Map III.1.2.3i. Pollution and disturbance of the water column: land borne pollution, based on observations

Map III.1.2.3j. Aerial disturbance: (future) potential obstacles for birds above the BPNS

Map III.1.2.4a. Planned wind turbine parks in the BPNS

Map III.1.2.4b. Coastal defense in the BPNS: evolution of the coastline

Map III.1.2.4c. Coastal defense in the BPNS

Map III.1.2.4d. Radar, survey and monitoring infrastructure in the BPNS

Map III.1.2.4e. Cables and pipelines in the BPNS: all cables and pipelines (left) and the main bundles (right)

Map III.1.2.4f. Existing spatial structure: fixed infrastructure in the BPNS

Map III.1.2.5a. Existing spatial structure of the Belgian coastal strip

Map III.1.4.2a. General decision rules applicable to the six scenarios

Map III.1.4.2b. Scenario 1: The Relaxed Sea – the broader context

Map III.1.4.2c. Scenario 1: The Relaxed Sea – spatial concepts

Map III.1.4.2d. Scenario 1: The Relaxed Sea – spatial structure plan

Map III.1.4.2e. Scenario 1: The Relaxed Sea – significance for the “uses” of the BPNS

Map III.1.4.2f. Scenario 2: The Playful Sea – the broader context

Map III.1.4.2g. Scenario 2: The Playful Sea – spatial concepts

Map III.1.4.2h. Scenario 2: The Playful Sea – spatial structure plan

Map III.1.4.2i. Scenario 2: The Playful Sea – significance for the “uses” of the BPNS

Map III.1.4.2j. Scenario 3: The Natural Sea – the broader context

Map III.1.4.2k. Scenario 3: The Natural Sea – spatial concepts

Map III.1.4.2l. Scenario 3: The Natural Sea – spatial structure plan

Map III.1.4.2m. Scenario 3: The Natural Sea – significance for the “uses” of the BPNS

Map III.1.4.2n. Scenario 4: The Mobile Sea – the broader context

Map III.1.4.2o. Scenario 4: The Mobile Sea – spatial concepts

Map III.1.4.2p. Scenario 4: The Mobile Sea – spatial structure plan

Map III.1.4.2q. Scenario 4: The Mobile Sea – significance for the “uses” of the BPNS

Map III.1.4.2r. Scenario 5: The Rich Sea – the broader context

Map III.1.4.2s. Scenario 5: The Rich Sea – spatial concepts

Map III.1.4.2t. Scenario 5: The Rich Sea – spatial structure plan

Map III.1.4.2u. Scenario 5: The Rich Sea – significance for the “uses” of the BPNS

Map III.1.4.2v. Scenario 6: The Sailing Sea – the broader context

Map III.1.4.2w. Scenario 6: The Sailing Sea – spatial concepts

Map III.1.4.2x. Scenario 6: The Sailing Sea – spatial structure plan

Map III.1.4.2y. Scenario 6: The Sailing Sea – significance for the “uses” of the BPNS

Map III.3a. Workshop results: group 1 – spatial structure plan

Map III.3b. Workshop results: group 2 – spatial structure plan

Map III.3c. Workshop results: group 3 – spatial structure plan

Map III.3d. Workshop results: group 4 – spatial structure plan

Map III.3e. Workshop results: group 5 – spatial structure plan

Map III.3f. Workshop results: group 6 – spatial structure plan
